Available for Internships & Projects

Hi, I'm M. Venkata Sai

I am a Ar |

Artificial Intelligence and Data Science Student at **Ramachandra College of Engineering (RCEE)** with an active passion for building high-performance full-stack web applications, intuitive digital products, and intelligent software solutions.

SCROLL TO EXPLORE

ABOUT ME

Driven by Curiosity, Grounded in Engineering

A snapshot of who I am, my academic background, and what I bring to technical teams.

Professional Profile

I am an aspiring software engineer currently pursuing my Bachelor of Technology (B.Tech) in **Artificial Intelligence and Data Science** at **Ramachandra College of Engineering (RCEE)**.

My core strengths lie in bridging modern web technologies with user-centric interface design and intelligent algorithmic logic. Whether architecting an interactive Agri-Tech platform like **Mandi Mitra** or developing NLP language tools like **Prakalp**, I focus on clean structure, dependable performance, and measurable real-world utility.

Fast Learner | Team Collaborator | Goal-Oriented | Hands-on Builder

Full-Stack Web Development

Creating responsive, modern web applications using HTML5, CSS3, JavaScript, React, and RESTful APIs with attention to accessibility and clean design.

Problem Solving & Algorithms

Translating computer science fundamentals into working code, from computational scheduling algorithms to Natural Language Processing (NLP) tools.

Leadership & Collaboration

Demonstrated ability to communicate ideas clearly, manage project workflows, and coordinate effectively within technical teams and student hackathons.

COMPETENCIES

Technical Expertise & Power Skills

Categorized skills backed by hands-on project implementations and academic coursework.

Frontend Development

Modern Web & UI

- HTML5 — Semantic
- CSS3 & Flex/Grid — Advanced
- JavaScript (ES6+) — Proficient
- React.js — Modern
- Tailwind CSS — Utility-first
- Responsive Design — Mobile-first
- HTML5 Canvas — Interactive

Backend & Programming

Languages & APIs

- Python — Core & NLP
- Node.js / Express — RESTful
- Flask / Python Web — Applied

Developer Tools

Workflow & Build

- Git & GitHub — Version Control
- Vite — Bundler
- VS Code / Antigravity — IDE
- Chrome DevTools — Debugging
- Terminal / CLI — PowerShell/Bash

Power & Leadership Skills

Professional Growth

- Leadership — Demonstrated
- Communication — Articulate
- Project Management — Organized
- Problem Solving — Analytical
- Team Coordination — Collaborative

FEATURED WORK

Projects & Technical Innovations

Verified completed implementations exploring agricultural web platforms, natural language processing, and academic optimization engines.

All Projects (3) | Full-Stack (2) | Python & NLP (1)

AGRI-TECH PLATFORM

Full-Stack Application

Featured

Mandi Mitra

A digital agricultural marketplace connecting farmers and wholesale vendors. Features real-time mandi price discovery, authenticated sessions, automated PDF billing with jsPDF, and a high-performance UI built with React 19 and Vite.

React 19 | TypeScript | Express.js | Vite | Tailwind CSS | jsPDF

NLP & FLASK

Python & NLP Tool

Academic

Prakalp: Academic Text Simplifier

An intelligent NLP system designed to convert dense, polysyllabic academic texts into clear, readable language. Integrates NLTK tokenization, WordNet synonym substitution, Flesch Reading Ease calculations, and passive voice detection.

Python NLTK WordNet Flask Readability Metrics

View Case Study →

ERP & CONSTRAINT SOLVER

College ERP & Scheduler

Hackathon Project

EduFlow ERP & Timetable Engine

An enterprise-grade college ERP featuring an automated timetable and exam scheduling engine. Resolves multi-variable constraints across faculty workloads, room availability, student cohorts, and exam allocations with conflict detection.

JavaScript | Modular UI | Constraint Solving | ERP Architecture | Conflict Inspector

ACCREDITATIONS

Certificates & Academic Milestones

Verified academic credentials, scholastic distinctions, and technical milestones.

Score: 91%

ACADEMIC DISTINCTION

Intermediate Certificate (MPC)

Board of Intermediate Education & NRI Junior College

Secured an exceptional **91% aggregate score** in Higher Secondary examinations with rigorous training in Higher Mathematics, Physics, and Chemistry.

91% Merit | Mathematics | Analytical Sciences

Score: 72%

SECONDARY EDUCATION MILESTONE

Secondary School Certificate (SSC / 10th)

Board of Secondary Education & ZPH School

Completed secondary school education with **72% marks** in 2023, establishing strong core mathematics, sciences, and communication capabilities.

2023 Completion | Foundational Sciences | Co-Curriculars

Pursuing Degree

UNDERGRADUATE ENGINEERING

B.Tech Artificial Intelligence and Data Science

Ramachandra College of Engineering (RCEE)

Undergraduate coursework covering Data Structures & Algorithms, Web Engineering, Database Management Systems, and Artificial Intelligence & NLP.

Core CS | Full-Stack Web | Python & NLP

ACADEMIC BACKGROUND

Education & Milestones

Consistent academic foundation leading towards software engineering and technical problem solving.

Pursuing Present

Ramachandra College of Engineering (RCEE)

Bachelor of Technology (B.Tech) — Artificial Intelligence and Data Science

Developing strong fundamentals in Data Structures, Database Management, Web Development, Object-Oriented Programming, and Operating Systems. Actively involved in campus hackathons, web projects, and team leadership initiatives.

Core CS | Web Development | Technical Leadership

Score: 91% Intermediate

NRI Junior College

Intermediate (MPC — Mathematics, Physics, Chemistry)

Achieved an outstanding score of **91%**, building strong analytical thinking, quantitative problem solving, and mathematical modeling foundations.

Mathematics | Analytical Thinking | Academic Merit

Score: 72% 2023 Completion

ZPH School

Secondary School Certificate (SSC / 10th Standard)

Completed secondary education with **72%** in 2023, participating in academic and school co-curricular activities.
